Specialist Seating

Adult & Paediatric Price List

Seating requirements are often complex; trying to balance issues of comfort, pressure management, posture control and independence is not always easy, especially when trying to predict future requirements.

At CareFlex, our aim is to provide the most effective pressure management seating solutions available, incorporating our innovative and unique system called CareFlex WaterCell Technology®.

Our products are manufactured in the UK to the highest quality and are designed and developed with both client and carer in mind. Our painstaking trialling and testing means that our chairs meet the needs of a wide range of clients.

Providing the right seating system can help maintain independence and promote social inclusion.

It can help reduce deterioration and the risk of developing complications such as increased muscle tone and pressure damage.

All of our products are made to order and require an assessment to be carried out before a chair can be prescribed. By adding key accessories, more sophisticated and fully adaptable seating systems can be achieved.

We understand that on occasions our chairs may require special modifications to meet a client's needs. That's why we have created our custom made device service, available to help on request.

If you would like to discuss your requirements, please do not hesitate to contact our **Customer Careline on Freephone 0800 0186440** for advice or assistance and to arrange a free, no obligation product assessment.

How to Order

Adult & Paediatric Price List

 At CareFlex we sell our chairs through a distributor network. By doing this we are able to give you a faster, local more effective service.

Every CareFlex chair is made to suit the requirements of the individual. Therefore, before placing an order, it is essential that there is a professional assessment. All of our distributors have been trained to find and fit you with the perfect seating solution.

To arrange an assessment please contact our **Customer Careline on 0800 0186440** or contact your local distributor direct.

Conditions of Sale

Adult & Paediatric Price List

1 General and Variation

1.1 These terms and conditions shall govern any sale of goods by CareFlex Limited (hereinafter called “the Company”) to the exclusion of any other terms and conditions including printed terms proposed by the purchaser in any of its documents.

1.2 Neither the purchaser nor Company shall be bound by any variation, waiver of, or addition to these conditions except as agreed by both parties in writing and signed on their behalf by a Director.

2 Law

These terms and conditions shall be governed by English Law. The contract shall be deemed to have been made in England and the parties to the contract hereby submit to the jurisdiction of the English Courts.

3 Order Quantities

All orders shall be accepted at the discretion of the Company which shall be free to determine such minimum and maximum order quantities as it deems fit. Orders below the minimum amount specified by the Company from time to time may be accepted upon payment of a surcharge.

4 Variation

The Company gives no guarantee that fabrics used on goods ordered will be an exact match to samples shown to the purchaser, and reserves the right to use the nearest equivalent.

5 Samples

Notwithstanding that a sample of the goods has been exhibited to and inspected by the purchaser, it is hereby declared that such a sample was so exhibited and inspected solely to enable the purchaser to judge for himself the quality of the bulk, and not so as to constitute a sale by sample.

6 Liability

6.1 No liability whatsoever shall be incurred by the Company in respect of any representation of any kind made by the Company or its agents to the purchaser or its agents before the contract was made.

6.2 The liability of the Company in respect of any breach of any express terms or terms implied by statute or common law or any negligence shall be limited to the price of the goods supplied and shall not extend to

direct or indirect loss of profit or any consequential losses except where personal injury or death has been caused to any party as a result of any such breach or negligence.

7 Price

Unless otherwise agreed, packaging and delivery are not included in prices quoted by the Company and shall be quoted and charged as separate items. Value Added Tax (or any other similar government taxes imposed from time to time) will also be charged according to law.

8 Payment

8.1 Payment is due in full within 28 days of the date of the invoice.

8.2 If payment of the price or any part thereof is not made by the due date, the Company shall be entitled:

8.2.i to charge interest on the outstanding amount at the rate of 4% per annum above the base rate of Barclays Bank PLC accruing daily;

8.2.ii to require payment in advance of delivery of undelivered goods;

8.2.iii to refuse to make delivery of any undelivered goods whether ordered under the contract or not and without incurring any liability; and

8.2.iv to terminate the contract without prejudice to the right of the Company to pursue a claim for all outstanding sums (notwithstanding that pursuant to clause 9 here of, property in the goods has not passed to the purchaser).

8.3 Notwithstanding and without prejudice to these provisions the company reserves the right to require payment of the full price or a deposit with order.

9 Property

9.1 Until all debts due from the purchaser to the Company have been paid, property in goods shall not pass to the purchaser notwithstanding delivery thereof. Pending payment of all such debts, the goods should be stored by the purchaser in such a way that they are identifiable as those of the Company. Should the purchaser dispose of the goods before property has so passed, the proceeds realised shall if requested by the Company be held in a separate bank account in trust for the Company until all debts due to it by the purchaser have been paid.

9.2 The Company shall have the right at all times to enter upon any premises where goods have been stored or located by the purchaser to inspect or repossess goods.

10 Delivery & Late Delivery

10.1 Should delivery be required by any means other than the Company's normal distribution arrangements, or to a third party other than the purchaser, a special charge may be made to cover the additional cost.

10.2 Time of delivery will not be of the essence of the contract unless expressly so stipulated in writing. Failure to deliver by a quoted or specified time shall not be a ground for cancellation or refusal to take delivery or entitle the purchaser to any claim by reason of such failure but if delivery shall be delayed by more than six months by any cause, the Company may cancel the contract for sale insofar as it relates to the goods affected by such delay.

10.3 Each delivery represented by the Company's invoice shall be deemed to be a separate and distinct contract subject to these conditions.

11 Risk

Save as otherwise agreed the risk in goods supplied by the Company shall pass upon delivery by the Company's carrier to the delivery address nominated by the purchaser.

12 Instalment Orders

In the case of contracts for delivery of stated quantities of goods by instalments over a defined period and contracts whereby the purchaser may call for delivery from time to time of such goods as may be required up to an agreed quantity, it shall be a condition that the total quantities specified shall be accepted by the purchaser within twelve months of the date agreed for the commencement of the arrangement or, if a defined period has been agreed for such an arrangement, before the end of that period. Each delivery and instalment shall be separately paid for at the price relating to the total quantity specified in the contract but should a purchaser fail to call for the full quantity of goods covered by the agreement within the defined period, a surcharge will be made by the Company to reflect the reduction in quantity discount appropriate to the volume of goods actually delivered.

13 Set Off

There shall be no right of set off between debts arising between the Company and the purchaser.

14 Assignment

No contract between the Company and the purchaser may be assigned.

15 Short Delivery & Returns

15.1 Where goods are delivered by carrier, and the carrier requires a delivery note to be signed by the purchaser, the delivery note must in all cases be clearly annotated to the effect that the goods are unchecked. The goods must be checked by the purchaser immediately and claims for damage in transit, or believed damage in transit will only be accepted if notified to the Company within 24 hours of delivery.

15.2 Any claims or complaints as to defect or short delivery, in circumstances other than those referred to in clause 15.1, must be made to the Company within 48 hours of receipt by the purchaser of the goods.

15.3 Goods correctly supplied may not be returned without the Company's prior agreement. The Company will not, in any event, accept returns of goods unless they are in perfect condition. Should the Company agree to accept returns a handling charge will be made based upon the full list price without discounts of any sort. For goods returned within three months of supply, a handling charge of 5% of the list price will be applied, and for goods returned after three months of delivery a handling charge of 10% of the list price will be applied.

16 Force Majeure

If delivery is delayed by fire, accidents, defective materials, delays in receipt of raw materials, bought-in goods or components, or any other cause beyond the reasonable control of the seller or by strikes, lockouts or other industrial action, the terms of clause 8.2 shall not apply and a reasonable extension of time for delivery shall be granted.

If delivery is delayed by more than six months by any such cause, the Company may cancel the contract insofar as it relates to the goods affected by such delay.

17 Intellectual Property Infringements

The Company gives no indemnity in respect of any actual or alleged infringements of patents, trade marks, trade names, registered designs or any other intellectual property right relating to the goods it supplies.
