

The SmartSeat™ Pro

The highly adjustable,
modular seating system for
clients with complex postural
and pressure needs..

CareFlex

SMARTSEAT™ PRO

THE SMARTSEAT™ PRO

The SmartSeat™Pro is a highly adjustable, modular seating system for clients with complex postural and pressure management needs. It has been designed to give healthcare professionals maximum adaptability to optimise posture, function and comfort for their clients.

The level of flexibility offered by the four part backrest ensures the SmartSeat™Pro can be easily configured to suit individual needs, aiding pelvic stability as well as trunk and head alignment. The individual backrest components can be quickly and easily adjusted to ensure that a range of postural asymmetries such as kyphosis, lordosis and scoliosis, can be fully supported, stabilised and, where possible, corrected from the sacrum to the cervical spine. The unique multi-adjustable back has three upper back-rest components which can be altered in height, depth, angle, off set and rotation, to suit the user's needs. Each of these upper elements include built-in adjustable wings which can be individually positioned to contour the seat back to the user's shape.

CLIENT GROUPS

- Complex postural needs.
- Scoliosis, Lordosis, Kyphosis.
- Semi-ambulant or non-ambulant.
- Neurological Conditions: Multiple Sclerosis, Muscular Dystrophy, Motor Neurone Disease and Cerebral Palsy.
