

# The MultiAdjust

Now available  
with motorised  
adjustment control  
options

An all round highly  
adjustable, adaptable,  
comfortable and cost  
effective posture care chair.

## CareFlex

## MultiAdjust

The new MultiAdjust is a cost effective, tool-free, highly adjustable seating system that provides postural support and pressure care without compromising the users comfort. The chair benefits from Tilt-in-Space, Back Angle Recline and lower limb support, offered with adjustment control options (manual or motorised). The MultiAdjust is an ideal choice for multiple user environments, and for those who are semi-ambulant and non-ambulant. Its modular design, with interchangeable accessories, makes it a perfect fit for Community Loan Stores. It is suitable for a wide range of seating needs in most Care Environments. It provides high levels of comfort and the robust construction quality that you would associate with CareFlex. For peace of mind the MultiAdjust comes with a Lifetime Frame Warranty.

Adjustments
