

CareFlex

The Rise & Recline Range

5 Year warranty on the frame & electrics

The Dartington

Introducing the Dartington, a traditional and elegant chair with matching hand-pleated scroll arms and wings, that has been designed with independence, comfort and aesthetics in mind.

Features & Benefits

CareFlex

The Benefits

- The Dartington features beautifully hand-pleated scroll arms and wings, offering you a rise and recline chair with classic, traditional style.
- You can choose from multiple backrest options to find the level of comfort and support that best suits your needs.
- Integrated pressure care comes as standard, helping to meet your skin health needs.
- The tilt function keeps the seat-to-back angle the same while tilting the entire chair. This helps you maintain pelvic stability while redistributing pressure.
- Back recline can adjust the seat-to-back angle, opening up the hip angle.
- Your seating functions will be selected based on your posture and pressure care requirements.

Size Matrix	Super Petite	Petite	Wide Petite	Standard	Classic	Grande	Tall

5 Year warranty on the frame & electrics

Bariatric

The Ashburton

Introducing the Ashburton, a robust and refined bariatric chair designed to deliver exceptional comfort, functionality, and safety. With a higher weight capacity and thoughtful features to support both seated stability and ease of care, the Ashburton balances performance with classic design.

Features & Benefits

CareFlex

The Benefits

- The Ashburton supports a weight capacity of up to 40 stone (254kg), with a 25 stone (158kg) leg lift system to ensure reliable, full-body support.
- Robust, supportive arms help you feel secure and assist with safe transfers and repositioning.
- Reflex foam seat cushions come as standard to provide lasting comfort and consistent support.
- Vapour-permeable, waterproof fabric offers durability with a low-friction surface to help reduce the risk of pressure injury.
- An integrated battery backup system ensures your safety even in the event of a power cut.
- The tilt and recline functions can support comfort, relaxation, and pressure redistribution.
- Your seating functions will be tailored to your posture and pressure care needs.

The Kingsbridge

Introducing a rise and recline chair engineered with a dual-motor Trendelenburg mechanism, allowing a smooth transition into a fully reclined, lay-flat sleeping position. With a reclining back angle of up to 85 degrees, this chair is ideal for rest, relaxation, and extended comfort.*

*Other mechanisms are available.

Features & Benefits

The Benefits

- The Kingsbridge is fully cushioned and equipped with recline and tilt functions to provide you with optimal comfort, postural support, and energy management throughout the day.
- Your chair settings and fcuntions will be tailored to your individual postural and pressure care needs.
- A drop-arm feature can be added to either or both sides of the chair to assist with transfers and safe positioning.
- Waterproof, low-friction fabrics offer excellent durability while helping to reduce the risk of pressure injury.
- With the dual-motor Trendelenburg mechanism, you can be quickly and safely moved into a recovery position; an essential feature if you experience seizures.

Size Matrix	Dimensions
Seat Height	406mm - 559mm
Seat Width	483mm - 787mm
Seat Depth	457mm - 610mm
Back Height	660mm - 864mm
Arm Height	178mm

Recovery Position - Only achieved with the 2401 – Dual Trendelenburg mechanism

5 Year warranty on the frame & electrics

The Modbury

Introducing a meticulously designed portable chair, built to support both posture and pressure care while offering a smooth and controlled rise to standing. Versatile and practical, it's available in a range of options to suit different needs and environments.

Features & Benefits

CareFlex

The Benefits

- The Modbury is a flexible and manoeuvrable chair, ideal if you need to be moved easily within your environment while remaining supported and comfortable.
- A choice of mechanisms is available to match your postural and pressure care needs, with the added option of a gentle rise to standing for greater independence.
- Interchangeable back supports and cushions help you achieve the most comfortable and functional sitting position.
- A vapour permeable, removable seat wrap helps support infection prevention and control.
- The tilt function keeps the seat-to-back angle constant while tilting the whole chair, helping maintain pelvic stability and relieve pressure.
- The back recline function adjusts the seat-to-back angle to open the hip angle.
- Your setup will be tailored to your postural and pressure care needs.

Size Matrix*	Petite	Standard	Classic
Seat Height	432mm	483mm	483mm
Seat Width	432mm	483mm	533mm
Seat Depth	457mm	508mm	508mm
Back Height	660mm	711mm	711mm
Arm Height	203mm	203mm	203mm

*Bespoke Manufacture Available

5 Year warranty on the frame & electrics

The Saltram

A leading care chair designed to meet the evolving economic and environmental demands of local authorities and healthcare providers. With adjustable features that adapt easily to different needs and settings, it offers long term value, versatility, and durability in busy care environments.

Features & Benefits

The Benefits

- The Saltram has been designed to offer cost-effective flexibility, reducing the need for multiple chair sizes across different users and settings.
- It provides adjustable seat height and seat depth, allowing the chair to be quickly tailored to suit your individual dimensions and needs.
- A choice of back support options helps you find the right level of comfort and postural alignment.
- The tilt function allows the chair to gently tilt while maintaining a consistent seat-to-back angle, helping with energy management and pelvic stability.
- The design also enables adjustments for specific postural care needs and can accommodate a range of additional pressure care products.
- If your needs change over time, additional features can be added retrospectively, making the Saltram a flexible solution for long-term comfort and support.

Size Matrix*	Standard
Seat Height	457mm - 533mm
Seat Width	483mm or 533mm
Seat Depth	432mm - 533mm
Back Height	711mm
Arm Height	178mm

*Bespoke Manufacture Available

Options & Accessories

Pressure Care

Reflex foam seat cushions as standard, giving maximum comfort and support in a sitting position. There is an option to select a docking cushion should the user require a higher level of pressure redistribution. Additional option of a Gelovations Dimensional Pad that are made of medical-grade Silicone Polymer. The gel pads have a low profile at just 13mm in height. This maintains the original seating dimensions ensuring the correct seat to floor and armrest height. The cellular design allows air to circulate between the cells to minimise heat and moisture build-up, allows for even pressure distribution and contours to any underlying surface.

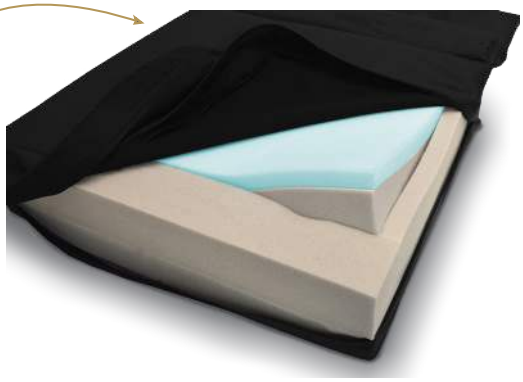

Gelovations Dimensional Pad Benefits:

- Manages pressure injury risk
- Supports pressure ulcer healing
- Low profile
- Improves comfort
- Reduces shear and abrasions
- Improved cooling
- Creates air-flow
- Hypoallergenic
- Easy to maintain
- Odourless
- Unique cellular design
- Contours to any shape
- Temperature resistant

The Gelovations Dimensional Pad is incorparated inside the standard seat cushion

Docking cushion to be used with the user's own pressure cushion.

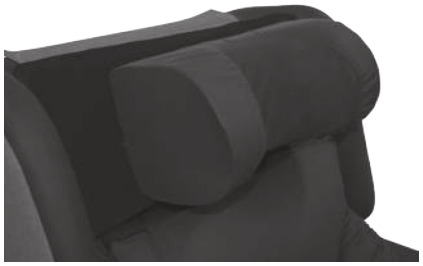

Head Support Options

Head Rolls
A deep soft pillow combined with a soft lateral which provides moderate support to the back and trunk.

Horseshoe Pillow
A contoured soft pillow to fit the shoulders and neck to provide a supportive and comfortable head position.

Neck Headrest
A Reflex foam headrest providing maximum support to users with limited head control.

Positioning Aids

Padded Pelvic Belt
The additional padded pelvic belt maintains user position and is designed for comfort and stability.

Postural Support

Back Cushions

2-Tier Waterfall Back
A classic fibre filled back cushion provides a soft feel and maximum comfort. Both fibre filled cushions are fully adjustable with zip access at the rear to offer bespoke support at the trunk.

3-Tier Waterfall Back
Each individually fibre filled cushion has zipped rear access for adjustment, providing maximum comfort & bespoke support. Beneficial to users with more complex postural needs such as an increased thoracic kyphosis.

Button Back
A traditional styled back cushion made for comfort and style to fit in with the surroundings and other furniture.

Foam Contoured Back
A firm foam filled lateral back with a soft fibre filled headrest. Providing comfort whilst encouraging an upright midline position at the trunk for those who require increased lateral support.

2-Tier Vertical Drop Back
A fibre filled back designed for a comfortable feel and to aid in the reduction of pressure around the mid-back whilst offering mild lateral support at the trunk.

3-Tier Midline Lateral Back
Includes all the benefits of a 3-tier waterfall back but with additional lateral support for optimum midline positioning.

3-Tier Lateral Back
Includes all the benefits of a 3-tier waterfall back but with additional lower trunk lateral support for optimum positioning.

2-Tier Lateral Back
A soft fibre filled lateral back with a soft fibre filled headrest. Providing comfort with lower trunk lateral support.

Full Length Lateral Back
A soft fibre filled full length lateral back with a soft fibre filled headrest. Providing comfort with full trunk support for an upright midline position.

Optional Accessories

Transfer Support

Our beautifully stylish and comfortably designed wooden knuckles are made using premium quality wood and come in a choice of three; Mahogany, Teak and Natural to compliment any environment.

Wooden Knuckles
Hand grips to assist with transfers and for users with limited hand dexterity.

Removable Covers

Head Rest Cover
A removable cover that sits over the head rest, can be washed and replaced.

Arm Rest Cover - Full or Half
A removable cover that fits over the arm rest, either full or half, can be washed and replaced.

Seat Cover
A removable cover that sits on the seat cushion, can be washed and replaced.

Feet

Glides - Standard or Non-Slip
Glides to suit a variety of floor types i.e. laminate and wooden floors.

Standard Locking Castors
Standard housekeeping locking castors.

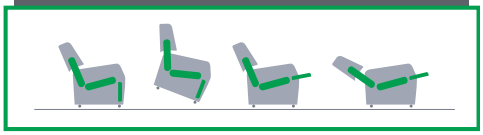

Portering Swivel Castors
Large braked castors for ease of portering.

*Options and accessories are dependent on the chair type and the requirements of the user. Please consult with your Seating Assessor and/or Health & Social Care Professional. Further options are avilable upon request.

Next Steps...

We are with you every step of the way.

Choosing the right care chair can feel like a big decision, but we are here to make it simple, supportive, and stress-free.

1. Speak to Our Friendly Team

We will listen to your needs and help guide you to the right chair; no pressure, just honest advice.

2. Free, No Obligation, Home Visit

A trained specialist will visit to assess your needs, demonstrate the chair, and make sure it is the right fit.

3. Personalised Quote

You will receive a clear quote with optional extras, funding advice if needed, and time to decide.

4. Made for You

Your chair is built to your individual specifications in our UK factory.

5. Delivery and Setup

Our team delivers the chair, sets it up, and makes sure you feel confident and supported using it.

6.Ongoing Support

From small adjustments to long-term care, we are here whenever you need us.

CareFlex has a great team that are always very professional and knowledgeable.
